Please use extra sheets to provide the requested information, if necessary.

Remember that it is easier for us to make a decision if you provide as much information as possible initially.

For projects approved by the committee the UKuG will provide up to 75% of required funding as staged payments. To qualify for stage payments, only items costing more than £100 are to be included. (As an example for a project costed at £500, the cost of individual item costing £200 would be reimbursed in full upon completion of the stage payment form and a valid receipt). The remaining 25% paid when the project is complete. The UKuG will retain ownership of hardware purchased under this scheme.
